EXPERIENCE

Peak Values Consulting — *Data Analyst*

January 2022 - PRESENT

Developed dashboards and scientific simulations for various energy companies.
Implemented tests and CI/CD pipelines.

Techolution — *Data Engineer*

January 2021 - December 2021

Collected daily operations data via web scraping for a book publisher.
Architected an integration project from Auto-Sys to Airflow.
Conducted technical interviews.

Freelance — *Software Engineer*

May 2020 - Present

Sped up client operations by 50-200% via different sorts of automation.
Managed and redesigned databases to ensure data governance.
Implemented automated CI/CD pipelines via GitHub Actions speeding up and documenting client deploy ops.

EDUCATION

University of Texas at Austin — *Certificate*

November 2019 - May 2020

6-month intensive bootcamp with capstone project that served as personal pantry manager with caloric analysis & recipe recommendation.

Austin Community College — *Mathematics A.S.*

July 2016 - December 2018

Co-Founded the Math Club and led the Physics Club in my time here.

PROJECTS

tasteofaustintours.com — *Software Engineer/Co-Founder*

Designed and deployed this website for a joint venture in tourism.

SKILLS

Analytical Reasoning

Cloud Computing:

- Google Cloud (GCP)
- DigitalOcean
- AWS
- Docker
- Unix systems

ETL Processes:

- Data Governance
- Data Manipulation
- Web Scraping

Visualization:

- Plotly
- Matplotlib/Seaborn
- D3.js

Machine Learning/AI

- Regression
- Classifiers

Teamwork:

- Git
- Jira

Programming Languages:

- Python
- Javascript (NodeJS)
- SQL

LANGUAGES

Spanish - Native

English - Fluent
